Volume 1, Issue 1

READINESS THRU HEALTH

*Training and Services of the Field Preventive Medicine Division,
USACHPPM-West*

The purpose of this booklet is to provide a list of services offered by the Field Preventive Medicine Division (FPMD) of USACHPPM-West. FPMD serves as a great source of didactic and hands-on instruction along with continuous technical consulting, just an email or phone call away.

The Field Preventive Medicine Division of Center for Health Promotion and Preventive Medicine- West offers extensive training opportunities to all levels of Preventive Medicine personnel.

Preventive Medicine personnel can receive refresher or initial training on any area of public health to include industrial hygiene, entomology and environmental sanitation.

Other Services

In addition to traditional preventive medicine training, USACHPPM-West offers two types of certification courses annually. The DOD pesticide applicator certification course and the National Restaurant Association Educational Foundation's ServSafe course are both offered at CHPPM-West.

Pictures from numerous past base camps are used to demonstrate field sanitation issues. Duration: 2 hours Slide #: 60 Equipment: Base camp inspection forms
FOOD SANITATION REFRESHER COURSE DIDACTIC Refresher training on basic food sanitation principles and proper dining facility inspections and documentation. Duration: 1 hour Slide #: XX Equipment: TB MED 530	DISEASE AND NON-BATTLE INJURY RECORDING AND REPORTING DIDACTIC AND HANDS-ON Training will include the importance and proper method of documenting and reporting DNBI. Duration: 2 hours Slide #: 0 Equipment: Mock DNBI reports

Water Training

SANITARY CONTROL AND SURVEILLANCE OF FIELD WATER SUPPLIES PART I (TB MED 577) DIDACTIC Description and capabilities of the various entities responsible for field water supplies. Class includes a review of water testing frequencies and documentation. Duration: 30 minutes Slide #: 20 Equipment: TB MED 577	SANITARY CONTROL AND SURVEILLANCE OF FIELD WATER SUPPLIES PART II (TB MED 577) DIDACTIC Training will cover the physical, chemical and biological standards of field water supplies. Includes description of Preventive Medicine Equipment and capabilities. Duration: 1 hour Slide #: 10 Equipment: TB MED 577
WATER QUALITY ANALYSIS SET- PURIFICATION (WQAS-P) DIDACTIC Training will cover the capabilities, operations, maintenance and calibration of the WQAS-P kit. Duration: 30 minutes Slide #: 24 Equipment: WQAS-P and forms	WATER QUALITY ANALYSIS SET- PURIFICATION (WQAS-P) HANDS-ON Companion class to the WQAS-P, Didactic portion. Personnel use WQAS-P kit to test various water sources. Duration: 2 hours Slide #: 14 Equipment: WQAS-P and forms
WATER QUALITY ANALYSIS SET- PREVENTIVE MEDICINE (WQAS-PM) DIDACTIC Training will cover the capabilities, operations, maintenance and calibration of the WQAS-PM kit (DREL 2010 or 2400). Duration: 30 minutes Slide #: XX Equipment: WQAS-PM (DREL 2010 or 2400) and forms	WATER QUALITY ANALYSIS SET- PREVENTIVE MEDICINE (WQAS-PM) HANDS-ON Companion to the didactic training. Personnel will analyze water samples using the WQAS-PM kit. Duration: 2 hours Slide #: 0 Equipment: WQAS-PM (DREL 2010 or 2400) and forms

Industrial Hygiene

AIR SAMPLING USING THE AIRMETRICS MINIVOL <i>DIDACTIC</i> Introduction to the capabilities, proper use and calibration of the Minivol low volume air sampler. Duration: 1 hour Slide #: 34 Equipment: MiniVol, Altimeter/Barometer, Flow meter and forms	AIR SAMPLING USING THE AIRMETRICS MINIVOL <i>HANDS-ON</i> Companion class to the didactic portion. Personnel will set-up the Minivol for a 24hr sampling period and fill out all associated documents. Duration: 1 hour Slide #: 21 Equipment: MiniVol, Altimeter/Barometer, Flow meter and forms
AIR SAMPLING USING THE SKC PERSONAL POCKET PUMP <i>DIDACTIC</i> Introduction to the capabilities, proper use and calibration of the SKC pocket air sampler using the CalCheck and/or Dry Cal calibrator. Duration: 1 hour 30 minutes Slide #: 21 Equipment: SKC pump, Dry Cal or CalCheck calibrators	AIR SAMPLING USING THE SKC PERSONAL POCKET PUMP <i>HANDS-ON</i> Companion class to the didactic portion. Soldiers will set-up the SKC pumps for personal sampling and fill out all associated documents. Duration: 1 hour 30 minutes Slide #: 11 Equipment: SKC pump
AIR SAMPLING USING THE MULTIRAE PLAS MULTIGAS/VOC DETECTOR <i>DIDACTIC & HANDS-ON</i> Introduction to the capabilities, proper use and calibration of the MultiRae multigas/VOC air sampler. Duration: 1 hour 30 minutes Slide #: 27 Equipment: MultiRae	SOIL SAMPLING USING THE DEPLOYMENT SOIL KIT <i>DIDACTIC & HANDS-ON</i> Training will cover the proper sampling plans/equipment, holding times and quality control of field soil sampling procedures along with proper documentation Duration: 2 hours Slide #: 17 Equipment: Deployment soil kit

Entomology Training

ARTHROPOD-BORNE DISEASES (INCLUDING LEISHMANIASIS) <i>DIDACTIC</i> Soldiers will learn how to identify, prevent and control arthropod-borne diseases Duration: 2 hour Slide #: 34 Equipment: Training guides and appropriate military manuals	ARTHROPOD-BORNE DISEASE PREVENTION <i>HANDS-ON</i> Companion class to the didactic portion. Soldiers will learn how to properly treat uniforms, tents and bed nets in order to protect soldiers from arthropod-borne diseases. Duration: 1 hour Slide #: 00 Equipment: IDAA kit, Aerosol Permethrin, DEET, 2-gallon sprayer
PESTICIDE RECORDING AND REPORTING <i>DIDACTIC</i> Soldiers will learn the purpose, requirements and proper procedures in reporting pesticides used in a field environment Duration: 1 hour Slide #: 12 Equipment: Appropriate forms	RODENT-BORNE DISEASES AND IDENTIFICATION <i>DIDACTIC AND HANDS-ON</i> Training will cover the rodent biology and identification Primary focus will be the various control methods available to soldiers. Duration: 1 hour 30 minutes Slide #: 30 Equipment: Snap traps, Glue traps, Rodent samples
PESTICIDE APPLICATION TECHNIQUES <i>DIDACTIC</i> This training will cover the various equipment and treatment methods available to the preventive medicine specialists Duration: 1 hour 30 minutes Slide #: 64 Equipment: None	PESTICIDE APPLICATION TECHNIQUES <i>HANDS-ON</i> Companion class to the didactic portion During this training, soldiers will learn the proper use and calibration of the 2-gallon sprayer and the backpack sprayer. Duration: 3 hours Slide #: 00 Equipment: 2-gallon sprayer and Backpack sprayer
